

ABOUT BISLEY WORKWEAR

Bisley Workwear is part of the PIP Global family – a leader in Hand Protection and PPE.

For over 60 years Bisley Workwear has been shaping the Australian workwear industry with unparalleled quality, exceptional service, and value for money.

Today, we are expanding the Bisley brand around the globe providing workers with the ultimate in comfort, durability, and safety.

Bisley Workwear has long been regarded as one of Australasia's most trustworthy brands, offering a comprehensive range of Workwear, Safetywear and Protective wear for both men and women.

Customers are always our priority, servicing the largest orders with industry best daily replenishment order fulfilments, consistent quality performance, and service levels that consistently exceed customers' expectations. Our strength remains rooted in simple, old-fashioned values that drove our founders.

Bisley Workwear partners with recognised independent global testing laboratories to certify and develop garments.

Using the latest innovative technologies, we maintain the highest quality and compliance across our product lines.

Bisley Workwear is a proud industry leader in Environmental, Social and Governance (ESG) compliance initiatives.

BISLEY WORKWEAR INNOVATION

At Bisley, we have strived to deliver long lasting and durable clothing for over 60 years. Our iconic brand continues to engineer new and innovative workwear that handles the 21st centuries toughest jobs.

Each garment is tested to meet the highest standards of quality control and we continue to surpass expectation. Inspired by the Australian worker, our workwear provides the ultimate in style and safety.

Without compromising form for functionality, Bisley makes quality workwear for the big jobs.

Bisley's diverse collection of Workwear, Safetywear and Protective wear is big on safety and tough-wearing materials. It's big on comfort and style and continues to push the limits with its technical innovation including garments with inbuilt anti-bacterial treatment, sun protection, static control, moisture control, and flame and water resistance along with its latest workwear ranges X Airflow and FLX & MOVE.

X Airflow Cross Ventilation workwear is Bisley's latest innovative and revolutionary product, using laser perforation to combat heat stress. The fabric is lightweight, breathable and durable with excellent moisture management properties, making it ideal to wear in physically demanding conditions and for working outside in the summer months

The technology is based on a 3D cooling system, where air flows through multiple ventilation points on the garment at key heat stress areas, drawing heat and moisture away from the skin and out of the garment. The pants and shorts feature tactical-inspired multi-functional pockets and zip mesh vent openings which activate the extra cooling function for airflow where you need it most.

Built in stretch allows for greater ease of movement when working. Our FLX & MOVE 4-Way Stretch shorts allow for maximum flexibility and unrestricted movement in all directions, preventing wear at the seams that

With an activewear look and highly innovative materials, our FLX & MOVE 4-Way Stretch shorts are the next generation of premium workwear.

At Bisley Workwear, we know that every trade is different, and every tradesperson is different, but every tradie deserves the right workwear

We worked closely with female tradies from different trades to create our women's workwear range to ensure the gear was perfectly fit for purpose Taking a three-dimensional approach to female fit, this range features elements our tradies needed like; reinforced paneling, additional stretch, new waistbands and waist heights, fitted leg panels, and new cuffs

BISLEY WORKWEAR INNOVATION

APEX FR

In collaboration with FR fabric specialist, Daletec, we have created our new APEX flame resistant (FR) range. This range has been designed for the highest level of protection without compromising on comfort.

Each garment includes soft touch technology and moisture management to minimize heat stress. APEX fabrics in this range are available in three weights, 160gsm, 185gsm and 240gsm, in styles for men and women.

The APEX FR range is exclusive to Bisley Workwear.

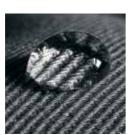

BISLEY STANDARDS

Bisley Workwear garments are developed and tested to meet stringent industry standards and deliver work, health and safety (WHS) solutions.

AS/NZS 2622:2019

Bisley Workwear garments meet the requirements of AS/NZS 2622:2019, which outlines the method for labelling of fibre content in textile products.

AS 2001.2.18-1987

Bisley Workwear 'waterproof' garments are deemed compliant when no water has passed through it over an 18-hour period. These garments have a water-repellent or water-resistant coating that stops moisture from reaching the wearer in wet weather conditions.

AS/NZS 1020:2023

Bisley Workwear offers a large range of natural cotton fibre products, which naturally avoid the generation of static electricity by remaining neutral, therefore increasing the wearer's comfort.

ISO 14184-2.2011

Fabrics used in Bisley Workwear garments are tested regularly to ensure that naturally created formaldehyde levels are kept to the safe minimum standard set out by the ACCC (Australian Competition & Consumer Commission). Bisley Workwear garments are free from formaldehyde.

AS/NZS 1957:1998

Bisley Workwear garments meet the requirements of AS/NZS 1957:1998 that outlines the care instructions needed to ensure proper care of the garment.

AS/NZS 2392:1999

Bisley Workwear garments meet the requirements of AS/NZS 2392:1999, which outlines the method for permanent labelling with the brand name, size, care instructions, fibre content and country of origin.

AS/NZS 4602.1:2011 / AMDT 2:2020

This standard specifies the visual requirements for high visibility safety garments for occupational wear by people who may be exposed to the hazard of moving traffic, or equipment in high risk situations. The standard covers garments suitable for day-time wear, night-time wear, where they will be seen by retroreflected light or for wear under both conditions in the relevant high risk situations, with minimum requirements for high visibility garments.

(e)

AS/NZS 1906.4:2023

Bisley Safetywear garments use high visibility materials made from durable woven or knitted fabrics and are tested for high daytime visibility. Our high quality fabrics and retroreflective tapes for use at night are tried and tested to this standard to ensure you're protected in high risk situations.

AS/NZS 4399:2020

All garments that comply with this standard deliver ultraviolet protection, commonly known as UPF. Where the most effective sun protection is required, we recommend a garment that covers the full arm and leg area and has a sun protection rating of UPF 50+.

Protective clothing must be suitable for the nature of the work and any risk associated with that work. Garments may no longer comply or be effective if;

- Material shows visible fading or soiling
- Reflective material shows cracking
- Protective clothing must fit the wearer properly for both comfort and safety.

To help you navigate the features of Bisley Workwear, this handy guide will explain the product features and benefits represented by each of our icons.

You will find these icons alongside the name of every relevant product in this catalogue.

VISIBILITY

HI VISIBILITY MATERIAL

Bisley Safetywear Hi Vis garments are developed to be seen in high-risk environments and protect you from work place hazards.

AS/NZS 1906.4:2023

HI VIS DAY OR NIGHT

Class D/N. Day/Night garments are developed to be worn both during the day and also at night. Hi Vis Colours accompanied with retroreflective taping offer maximum

AS/NZS 4602.1:2011/Amdt 2:2020

TTMC-W17

Bisley Safetywear garments comply with NZTA (New Zealand Transport Agency) code of practice (CoPTTM) Temporary Traffic Management Control - Wet (TTMC). This code of Practice specifies the standard of safety garments that a worker must wear while working in or close to hazardous traffic areas.

AS/NZS 4602.1:2011/Amdt 2:2020

HI VIS NIGHT ONLY

HI VIS DAY ONLY

Night (N) Only garments are developed to be worn during the night time only as the retroreflective taping offers visibility from vehicle headlights.

Class D. Day only garments are developed to be worn during the

day time only and never at night. Hi Vis Colours are used to ensure

AS/NZS 4602.1:2011/Amdt 2:2020

you're seen in high-risk environments.

AUS RAIL

This Australian Rail standard outlines the minimum requirements for PPE when accessing the rail corridor. The high visibility shade is fluorescent orange. Both orange and reflective tape must comply to AS/NZS 1906.4 and design compliant to AS/NZS 4602.1 standard.

AS 7471:2019

PROTECTION

SUN PROTECTION

The ultraviolet radiation transmitted through a fabric to the skin is measured and given a rating of 15 (min protection), 30 (good protection), 50, 50+ (excellent protection).

AS/NZS 4399:2020

STATIC CONTROL

Certain natural fibres do not attract static electricity (static neutral) and therefore reduce the risk of an electric shock to the body. 100% cotton is the most common static control in garments.

AS/NZS 1020:2023

SHOWERPROOF

Resistant to light rain. Fabric is either treated with an outer coat finish or a waterproof membrane is added to the reverse side of rainwear fabrics. Generally if a garment repels liquid on the outside and is not fully seam sealed on the inside, it is also categorised as showerproof

INDUSTRIAL STRENGTH

Reinforced stitching, bartacks, rivets and heavy duty fabrics mean Bisley Workwear products with this symbol have been developed for industrial environments or work places.

COLD WEATHER

Garments designed to keep you warm in cold weather.

WATER RESISTANT

Water resistant membranes are often added to the reverse side of rainwear fabrics to ensure that no water can penetrate from outside, water resistant garments are fully seam sealed on the inside keeping you dry in wet weather.

AS 2001.2.16-1987

PROTECTION

BIOSCIENCE FRESCHE®

Fresche® microbial treatment is a highly effective approach to long term control and protection against the growth of bacteria and fungus which causes stubborn odours and stains. Fresche® is invisible when applied, it will not impact or change the colour or feel of the garment. Fresche® is derived from coconut oil a safe. sustainable and renewable resource.

to provide garments with an easy cleaning solution.

MOISTURE WICKING

Hydrophilic garments pull perspiration away from your skin to the outer layer of the fabric where it is able to evaporate faster, leaving your skin fresh and without excessive perspiration.

AATCC TM197-2022

INVISTA™ Cordura®

Some Bisley Workwear garments have Cordura® incorporated into them to enhance tear and abrasion resistance, due to the high quality, resilient Nylon yarns used to create it.

INDUSTRIAL WASH

STAIN REGUARD

Bisley premium Industrial range is designed to withstand industrial washes at 75°C. Using superior imported German dyes for greater colourfastness and superior industrial strength reflective tape.

COMFORT & SUSTAINABILITY

COOL LIGHTWEIGHT

We recognise the need for developing lightweight, breathable garments and have added mesh ventilation to key perspiration points on some garments.

BREATHABLE

Fabric is breathable or the garment is designed with

EASY-FIT

Whether you're an 'in-between' size or you prefer a comfortable stretch for freedom of movement, garments developed with an easy-fit waist can provide an ergonomic adjustment with no change to look or feel.

Bisley's X Airflow™ Technology is based on a 3D cooling system, where the air flows through multiple ventilation points on the garment at key heat stress areas.

STRETCH

Built in stretch that allows greater ease of movement when working.

RECYCLE

Bisley recycle is made from post-consumer plastic bottles. Referred to as RPET (recycled PET plastic).

Using RPET helps reduce the environmental impact by reducing the amount of plastic waste that ends up in landfills, oceans, and other natural environments.

FLAME RESISTANCE

FLAME RESISTANT

Garments made with flame resistant fabrics are made from materials that are inherently non-flammable. These type of materials are designed to prevent the spread of fire and will not melt or drip when in close proximity to a flame.

NFPA 2112:2023

The minimum incident energy (in Calories per cubic centimetre) that protective equipment can be exposed to, to prevent the onset of a second-degree burn.

ASTM F1959

Personal Protective Equipment (PPE) is an important line of defence in Arc Flash safety. NFPA 70E:2021 outlines four different Arc Flash PPE categories, with each category including the minimum Arc Rating value for the required PPE.

PPE 1: 4 cal/cm² PPE 2: 8 cal/cm² PPE 4: 40 cal/cm² PPE 3: 25 cal/cm²

NFPA 70E:2021

ETHICAL SOURCING AND HUMAN RIGHTS

2023 and into the future

The development of Bisley.POSITIVE is our commitment to continuous improvement to drive excellence within our business.

As a global apparel company, we understand our responsibility to our value-chain partners. We pride ourselves on having longstanding and well-established relationships with our Tier 1 partners; our values and standards are built on these foundations, as well as acknowledged within our signed agreements.

Our efforts this year were focused on establishing a dedicated team to drive our Human Rights and Ethical Sourcing program.

In addition, our ESG team are constantly reviewing our sustainability work and product offering. This assists Bisley to build the foundations of ethical sourcing within the business through aligning with key experts, training, and research and development.

- Formed ESG Supplier Compliance Team in Shanghai responsible for reviewing and assessing all SMETA 4P audits and Non-Conformances, ensuring our supply partners are committed to our policies and expectations.
- Increased diligence in auditing and on-boarding across the Bisley value-chain, full-time team in Asia committed to this program.
- · Local audits conducted at our embroidery and value-add partners.
- Appointed TrusTrace digital transparency and traceability tool to ensure that our products are made ethically. Once implemented, this will allow Bisley to trace our PO's up the value chain to source.

BISLEY - CONTINUED INVESTMENT IN PEOPLE AND PLANET

Bisley.POSITIVE is our commitment to becoming the most responsible workwear company. And we are focused on getting our job done, so you can do yours.

Bisley.POSITIVE is aligned with 4 Core United Nations Sustainable Development Goals.

COMMITMENT & EXECUTION

Solidifying our commitment and creating pathways for execution was a key priority this year and into the future. Through key stakeholder partnerships, we elevated our ethical sourcing work, transitioned to lower impact alternatives across areas of our operations and product, and became signatories to key industry programs.

We support the UN Sustainable Development Goals and have aligned our business activities and partnerships to the relevant global goals. Collectively, everyone at Bisley is focused on the Bisley. POSITIVE Goals. Our team actively works towards finding more sustainable solutions and advancements for our value chain.

Our achievements - 2023

Global Sedex partnership, including working with Sedex consulting and integrating IT reporting Systems.

Continued with our Textile Exchange partnership.

Business Council for Sustainable Development Australia. members of several working groups within BCSD bcsd australia

Transitioned packaging to 100% Ocean Bound plastic with Better Packaging Co.

Introduced synthetic recycled fabrications into new ranges.

OEKO-TEX 100 was implemented into industrial fabrications.

Engaged with TrusTrace 2023 – rollout commencing July 23, prioritised by country of import (defined by current forced labour legislation).

Tier 1 Vendor Audits SMETA 4 Pillar ongoing and prerequisite for working with Bisley & PIP Global Safety.

Signatory of the WWF Business call for UN Treaty on Plastics.

Continued our membership with the Worldly (formally Higg).

100% Ocean bound waste hanger program with Arch & Hook for all hanger requirements.

Arch& Hook

Electricity converted to renewable alternatives for Australian & New Zealand warehouses and Head Office.

Detailed ESG road map developed and integrated into Bisley.POSITIVE program.

Bisley.Positive

Bisley.POSITIVE purpose Vision and Mission developed with executive team.

PIP Global Partners with TrusTrace to Support **Sustainability Goals** and Compliance through Supply **Chain Traceability**

Bisley Workwear - PIP (Protective Industrial Products), a global leader in Workwear and Personal Protective Equipment (PPE), has partnered with TrusTrace, a global SaaS company with a market-leading platform for product traceability and supply chain transparency.

PIP is the first Workwear and PPE Company in the world to partner with TrusTrace and aims to inspire the industry in fostering sustainable

By utilizing TrusTrace, PIP will be able to gain visibility into the supply chain entities. validate such entities against sanction lists and trace purchase orders back to their source.

PIP is committed to human rights, mitigating the risk of any abuses within the supply chain, and mapping the supply chain and gathering product-level data is a critical step in this

Our team is focused on driving results, actively working with industry stakeholders to find lower impact solutions across our products and operations.

Bisley.POSITIVE, product Circularity, End-of-Life product Stewardship and sustainable and Ethical commitments.

2023 and beyond

- Impactful sustainable reporting, to be shared with Key Customers
- · Create innovative, high-performance products that meet circularity guidelines and develop end-of-life solutions.
- BlockTexx partnership for end-of-life solutions to uniform successful
- Building a library of low impact fabrics, and R&D options product team.
- Move all remaining labelling, swing tags, accessories, and trims to recycled product. Removing all unnecessary Virgin Plastics by 2024.
- Continue stakeholder mapping for end-of-life product stewardship program with other industry leaders.
- Working with a sustainability and impact expert to elevate and decentralize our responsible brand, operations, and product work.
- Embedding UN SDG's into Bisley DNA.
- Implementing TrusTrace to PIP Global Safety, prioritising by legislative requirements. Bisley product selling into the US market 1st priority.
- Workers Survey Engagement managed by an independent 3rd party Human Rights organization 2024/25.
- Transparent and Traceable supply chain reporting will be shared on our website 2024/25
- Global ESG website to showcase all of our programs, documents and impact reporting.

Bisley.positive

Mission to become leaders, fulfilling our responsibility to positively transform our industry to get the job done, so you can do yours.

RECYCLE

Bisley Recycle was introduced in 2021, beginning the integration of certified recycled polyester yarns into our product range.

Made from post-consumer plastic waste, these fibres divert pollution that could otherwise end up in landfills or our waterways.

Through careful research we utilise these recycled polyester yarns to develop our durable Bisley Recycle range. Transitioning conventional polyester to certified recycled options lessens our dependence on fossil fuels and diverts waste from landfills and waterways. This is a huge step forward in our Bisley.POSITIVE sustainability commitment.

As well as the Bisley Recycle range other Bisley garments are made using recycled polyester.

Look for this icon throughout the catalogue.

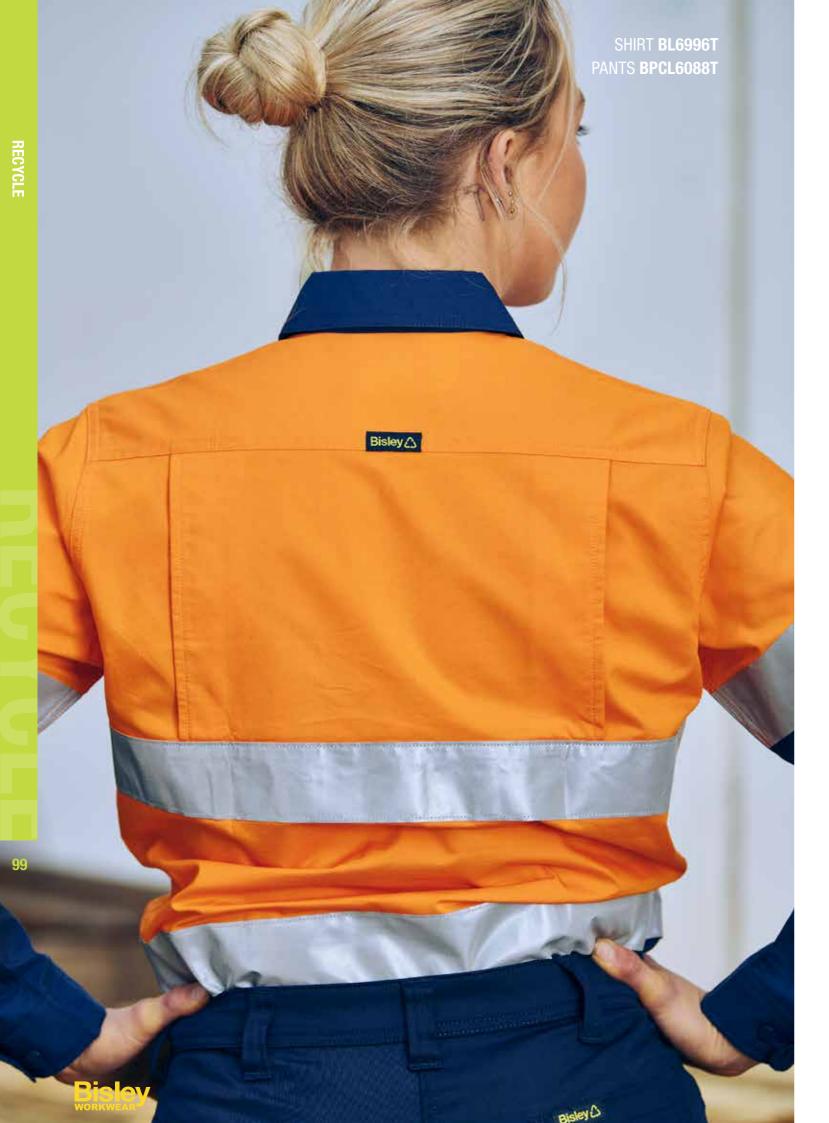

Some of our most popular polyester garments are now transitioning to recycled polyester.

Look for this icon throughout the catalogue.

FLAME RESISTANT

Our Flame Resistant (FR) Safetywear ensures protection within hazardous working environments (such as electrical arc flashes, oil/gas, and flame) and during times of extreme heat stress.

This range uses the highest quality flame resistant fabrics including Tencate Tecasafe Plus and APEX. Our rigorous testing and wear trials ensure confidence that your gear has you covered with the highest level of FR protection.

Discover flame resistant shirts, pants and coveralls all compliant to NFPA 2112, NFPA 70E, and EN ISO 11612 standards.

SIZING & HOW TO MEASURE

TRADITIONAL FIT

Workwear garments are traditionally pigger in terms of fit compared to fashion or casualwear. Bisley garments are well known for their generous fit, providing greater comfort and movement when you

The ease for Traditional Fit shirts is 23cm.

MODERN FIT

Bisley Modern Fit shirts are half size smaller than the Traditional Fit. Bisley Modern Fit pant is lower waisted and slightly slimmer in the leg.

The ease for Modern Fit shirts is 19cm.

ACTIVE FIT

Bisley Active Fit shirts are one size smaller than the Traditional Fit.

The ease for Active Fit shirts is 15cm.

EASE

Ease is the amount of excess volume in a garment needed for regular body movement. It is the difference between body measurement and garment measurement. Having ease is very important because this added volume allows you to breathe, move your arms forward, bend your elbows, sit, walk, and do all your normal daily activities in comfort and without restriction.

DISTRIBUTOR SUPPORT INFORMATION

QUALITY GUARANTEE

Bisley Workwear garments are sourced, manufactured and tested by independent laboratories, to Australian Standards which ensure consistency of product and workmanship. Each Bisley Workwear garment is labelled with a barcode and identifying order numbers (to meet AS/NZS 4602.1:2011) so we can quickly trace the production processes used to manufacture your product, identify the issue and resolve it immediately.

This exemplary quality control process allows us to replace any garment which does not meet your quality expectations once you return it to us for inspection.

CORPORATE IDENTIFICATION

The Bisley Workwear Product team can help you develop a corporate identity that sets you apart from the rest. We can monogram, embroider, heat transfer or screen print your company logo onto almost any piece of Bisley Workwear clothing. Contact our Customer Service team or your local Sales Representative for further information.

Corporate identification may also entitle you to claim a tax deduction for your business.

The Bisley Workwear Product team can provide you with information to ensure tax deductibility on your wardrobe.

BACK ORDERS

Stock service goods will be kept on back order at the customer's request.

MINIMUM ORDERS

All orders above \$150 (excl. GST) will be delivered freight free. All orders below \$150 (excl. GST) will attract a surcharge of AU \$20 + GST (NZ \$20 + GST).

CUSTOMER SERVICE HOURS

Australia and New Zealand 8.00am - 4.30pm

PRIORITY DELIVERY

For urgent deliveries, Bisley Workwear can provide a priority service where freight charges are calculated by Size, weight, destination

and speed of service required. Any additional charges are indicated on your order confirmation.

RETURNING PRODUCT

For all distributor initiated returns (where the customer has made an ordering mistake), a claim must be made within seven (7) days from receipt of the goods. An AU \$25.00 + GST (NZ \$25.00 + GST) handling fee will apply. Goods will only be accepted if they are in their original packaging and condition, free of any markings and damage. The customer will be required to pay for the freight back to the Bisley Workwear warehouse from which the goods were dispatched (Sydney/ Perth/ or Auckland). The original invoice number must be supplied before any claim can be processed.

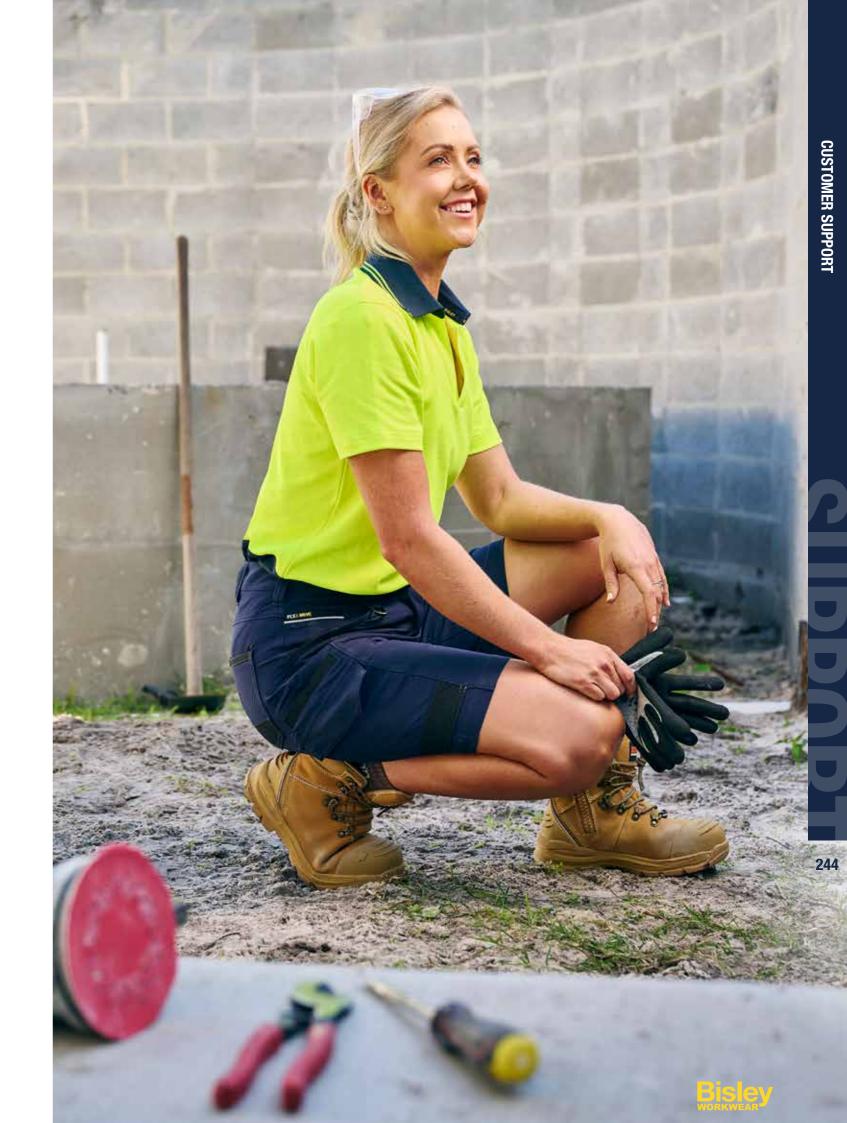

WE WILL NOT ACCEPT THE RETURN OF GOODS IF

- Goods are damaged in the washing machine or dryer due to care instructions having not been followed correctly
- Goods suffering from normal wear and tear
- Goods that have been shop soiled or have discoloured due to lengthy periods of time in the store
- Goods that are discontinued products
- Goods that have had a customer-approved value-add, including embroidery, printing or custom taping

WE WILL CONSIDER CLAIMS FOR

- Goods damaged or lost in transit
- Goods that are faulty or defective as a result of faulty workmanship or materials

A Returns Authorisation Number (R.A.N.) must be obtained by contacting the Bisley Workwear Customer Service team who will explain the full returns process. Any goods sent without a R.A.N. will be returned to the customer at their cost. Bisley Workwear will accept freight charges on returned goods provided the return has been duly authorised by a company representative and the goods are returned via the carrier nominated by Bisley Workwear.
